

Remarks:

Enclosed please find a replacement sheet for Figure 17 with Element 501 properly annotated. I want to thank the Examiner for pointing this formatting error out to me for correction.

Also note that Figure 13 was split by the draftsman into Figures 13A and 13B, respectively, in the formal drawings on file with the US Patent Office. In the specification, where Figure 13 is mentioned, it is to be considered as encompassing both Figures 13A and 13B inclusively. Other changes made herein to the specification are minor.

Respectfully Submitted,
